

# AUTOMATIC POT PLANT WATERING

## AWARD WINNING WATERING SYSTEM

- Prevents over and under watering
- Encourages healthy root growth
- Waters while you're away on holiday
- Hidden from view - with re-fill indicator
- Liquid fertiliser application
- Plants take away water only when they need it

1. Place Plantpal in your pot

2. Pot up your plant with compost

3. Remove cap and fill with water

*A revolutionary new product to increase sales all year round*

## WHY PLANTPAL IS DIFFERENT AND BETTER

Efficient use of water is becoming more important and consumers are on the lookout for products that save water in the garden. Plantpal is designed to be placed in plant pots and its patented system allows potted plants to water and feed themselves on demand.

- Plantpal is hidden under the soil inside the pot
- The plants take water only when they need it
- Healthier plants
- All year round and holiday watering
- Water saving
- Use in all pots from 18cm/7" to 40cm/16" high
- Priced for impulse and repeat purchase
- A great gift idea for plant lovers
